WPK Central Committee convenes Politburo meeting

The 19th meeting of the Political Bureau of the Seventh Central Committee of the Workers' Party of Korea took place at the office building of the WPK Central Committee on Monday, presided over by Kim Jong Un, chairman of the WPK, chairman of the State Affairs Commission of the DPRK and supreme commander of the armed forces of the DPRK.

The meeting was attended by members of the Presidium and members and alternate members of the Political Bureau of the WPK Central Committee.

Present there as observers were directors and first deputy directors of relevant departments of the Party Central Committee.

The meeting discussed as its first agenda item the issue of brilliantly marking the Eighth Congress of the Party by waging an 80-day campaign of the entire Party, the whole country and all the people.

The report on the first agenda item referred to the subjective and objective requirements for launching a new offensive under the current situation.

The meeting stressed the need for the entire Party and the whole

country to mount another general offensive since the remaining days till the Eighth Congress of the Party are a period of year-end struggle and at the same time the last phase in implementing the five-year strategy for national economic development put forth at the Seventh Congress of the Party.

The Political Bureau of the WPK Central Committee made a responsible and crucial decision to wage an 80-day campaign involving the entire Party and the whole country until the end of the year in order to celebrate the 75th founding anniversary of the Party as a great

happy event, proudly conclude this year's struggle by lifting up the spirit displayed in that course and successfully greet the Eighth Congress of the Party.

The meeting specified the main purpose of the campaign and the key principles to be maintained and the goals to be attained by each sector during the campaign and made an in-depth study of the detailed orientation and ways for carrying them through.

The Political Bureau of the WPK Central Committee decided to advance militant slogans and send a letter of the Party Central

Committee to all Party organizations and members to inspire the entire Party, the whole country and all the people to turn out in the 80-day campaign.

The meeting as its second agenda item adopted a decision on conferring a high military title on leading officials of the Party and the army on the occasion of the 75th founding anniversary of the WPK.

According to the joint decision of the Central Committee and the Central Military Commission of the WPK and the State Affairs Commission of the DPRK, the title of

the Marshal of the Korean People's Army was conferred on Ri Pyong Chol, vice-chairman of the WPK Central Military Commission and vice-chairman of the WPK Central Committee, and Pak Jong Chon, chief of the General Staff of the KPA.

After informing the participants of the joint decision, Supreme Leader Kim Jong Un congratulated the recipients, requesting them to live up to the deep trust and expectations of the Party and the people with great successes in their work.

WPK wholeheartedly devoted to people over 75 years

The history of the Workers' Party of Korea is inconceivable apart from the people. Its guiding ideology, political ideal and mode of politics are based on the people-first principle and its mode of existence is also selfless, devoted service for the people.

The WPK has safeguarded the dignity and destiny of the people at any cost.

The Korean nation is a resourceful and strong people with unyielding self-respect and stamina.

The Korean people engraved upon their hearts the truth that they might not lead a better life than others, but they cannot live being trampled underfoot and that national sovereignty and dignity are more valuable than their lives, while experiencing the bitter life as a ruined nation under Japanese military rule for decades from the early years of the past century.

The WPK finds its origin in the Down-with-Imperialism Union. The programme of the DIU, which harboured a lofty ambition to do away with all imperialism on the globe, contains the truth that

the aspirations and desire of the masses of the people to live independently are stronger than the imperialists' high-handedness and use of violence and it should be the immutable principle and fighting goal of a revolutionary party to champion and serve their independent interests at all costs.

Holding fast to this truth, the WPK has never allowed nor tolerated even once any dominationist arbitrariness and pressure threatening the dignity and destiny of the people since its founding, but enhanced the enormous capacity to cope with them. All the lines and policies of the WPK were independent in every respect. The core that runs through the whole course of the WPK's leadership, ranging from the path of progressive democracy after Korea's liberation to the line of building an independent national economy with the main stress put on heavy industry the WPK had chosen on the war debris, the line of building the economy and defence capability simultaneously, the emergence of Songun politics, the great victory of the new

simultaneous-push policy and the campaign for frontal breakthrough, was to maintain and serve the fundamental interests of the people and national self-respect.

The WPK has radically strengthened the geopolitical and strategic position of the state and consolidated the solid development potentials of its own based on the spirit of independence, self-supporting economy, self-reliant defence capacity and national talent force through the decades-long arduous struggle.

The history of the WPK is that of bringing happiness of the people into full bloom.

The Party emblem, into which a hammer, sickle and writing brush are incorporated, is the symbol of the WPK which embraces all the working people and gives them worthwhile lives as revolutionaries.

The WPK joined hands with anyone, whoever they were and whatever they did in the past, if they loved the country and wanted to serve the people, led them forward along the road of revolution and showed them love and trust. The Korean

people saw with their own eyes and experienced through the actual life the fact that if they throw in their lot with the Party, they can enjoy an eternal life even after their death and that even those who made mistakes or caused troubles in the past can start with a clean slate.

The WPK works hard to provide the people with a happy life.

Today arbitrariness and high-handedness of the imperialist powers are growing more rampant and cruel national egoism is rife on the earth.

The powerful war deterrent provided by the crucial strategic option and wise leadership of the WPK offers a firm guarantee for the present peaceful and happy life of the people.

The Korean people have lived peacefully for decades free from the ravages of war and their younger generations have come to enjoy such a dignified life that no one can dare to harm or look down on.

Now the WPK has set the improvement of the people's living standards as the principal strategic task and is concentrating all energies on

fulfilling it.

It is the unshakeable will of the WPK that if the personal safety of the people is surely guaranteed and their living stabilized, the Party and the state are secure and the economic growth and national prosperity are no problem.

The WPK is now directing everything of the country to relieving the people of the sufferings from natural disasters. The Party Central Committee has turned out for and the human and material potentials of the state are concentrated on the relief operation for the flood victims, and units of the Korean People's Army have been committed to the reconstruction campaign.

Thanks to the crucial decision of the WPK, all traces of natural disasters are being removed and model villages of socialist fairyland and socialist rural community completed one after another.

Therefore, the Korean people call the WPK their motherly party and uphold the Party line and policies with one mind.

At the time when the Party was founded

A broad avenue was opened to the Korean people for building a new Korea after they achieved the cause of national liberation from decades-long Japanese military rule in August 1945.

Soon after putting forward the tasks of building a party, state and armed forces in liberated Korea, Kim Il Sung buckled down to the founding of the revolutionary party of a Juche type.

In order to implement the policy of party founding he made up his mind to establish it by way of forming party organizations in local areas first and setting up the party's central leadership body on that basis.

The anti-Japanese war veterans who were dispatched to every local area conducted energetic activities to consolidate already-formed local party organizations, organize party cells in factories, mines and agricultural and fishing villages and expand party ranks with the progressive elements of workers and farmers.

As a result, party organizations at all levels were adjusted and strengthened in all parts of the northern half of Korea from ri to every province, as well as at industrial establishments, in a short period.

As the formation of local party organizations was pushed dynamically, the time became mature for establishing the party's central leadership body.

Based on a scientific analysis of the

situations existing in north and south of Korea at the time, Kim Il Sung proposed setting up the party's central leadership body in the north with favourable conditions without delay and specified the work to be done to this end.

On the basis of such preparations, a preliminary meeting for founding the party was convened on October 5 1945 and it discussed the issue of forming the Central Organizing Committee of the Communist Party of North Korea as the Party's central leadership body.

At the inaugural congress held between October 10 and 13, the committee was established and the founding of the Party was proclaimed to the whole world.

The founding of the Party meant that the working class and other working people of Korea came to have the true representative and defender of their interests and the Korean revolution became able to confidently push ahead with the building of new society with its political general staff.

At present, the building where President Kim Il Sung founded and led the Party soon after liberation is preserved in its original state at the southern foot of Haebang Hill in Central District, Pyongyang. It is now the Party Founding Museum.

Cherished as mother in the minds of people

The Korean people rely on the Workers' Party of Korea as they do their mothers.

Such faith did not form in a day.

Their absolute trust in the WPK developed through the long period of 75 years since its founding.

The Party's history can be said to be the annals in which the people's age-old desires have been translated into reality.

As the political General Staff leading the revolution, the WPK gave birth to the state and the army, made workers and farmers become masters of factories and the land and granted the people democratic freedom and rights as it carried out various democratic reforms.

The WPK has invariably pursued people-oriented policies, taken good care of them and enabled them to exalt their honour, and its history records numerous touching stories. To name a few, it admitted into it more than 40 people with chequered socio-political records and complicated family backgrounds all at once, awarded many folks in Ryongchon County of North Phyongan Province the certificates of bereaved families of patriotic martyrs at the same time by clearing them of false charges, and reclaimed culprits and made them add lustre to their genuine life.

As they are under the warm maternal care of the Party, those who were afflicted by natural disasters and left homeless

neither fall into despair nor lose their hearts.

As they firmly believe that they will never starve nor shiver in the cold as long as there is the motherly Party, the flood victims go to work in the stricken fields optimistically with a bright smile on their faces, instead of repairing their damaged houses.

The WPK called on its members in the capital city to offer heartfelt consolation to the people in the afflicted areas by demonstrating the warm care and solicitude of the Party and deep affection of Pyongyang and help them and work with devotion so that they can return to a normal life as soon as possible, saying that the 75th founding anniversary of the WPK (October 10) was approaching and that despite the difficult conditions and lack of time, the many victims of the disaster in North and South Hamgyong provinces should not be left to celebrate the holiday in the open. In hearty response to the Party's appeal, its 12 000 members in Pyongyang and other people turned out as one to rebuild all stricken areas into socialist fairyland and model villages of socialist rural community.

The image of mother etched in the people's minds—this is the image peculiar to the Workers' Party of Korea that no others can imitate.

CONTRIBUTION

Cause of the Party led by great leader is invincible

The International Department of the Central Committee of the Workers' Party of Korea published an article titled "Invincible is the cause of the Workers' Party of Korea led by the great leader" on Thursday on the occasion of the 75th founding anniversary of the WPK.

The article said that the Korean people are winning victory after victory even in the face of the worst adversities due to the outrageous challenges from imperialism plus the spread of global epidemic and successive natural disasters that hit the country and that the world's progressives are expressing absolute admiration and appreciation for their indomitable spirit and heroic struggle, showing great interest in the WPK's outstanding

leadership ability and the secret of its success.

During the historic days when Supreme Leader Kim Jong Un was held in high esteem as the top leader of the Party, state and armed forces, he solemnly declared his firm will to lead the Party and people only in President Kim Il Sung's and Chairman Kim Jong Il's style and fight more vigorously toward ultimate victory, it said. "In the course of leading the Party, the revolution, the country and the people for the last nine years, he has accomplished immortal feats that would go down in history".

The greatest exploit he performed for the WPK and the revolution is that he strengthened and developed the WPK into a party of the leader and the most powerful political

leadership organization in which the uniformity and continuity of ideology and leadership are firmly ensured, it noted.

At the historic time when the new century of Juche era was drawing near, the Supreme Leader made a scientific analysis of the perfect coherence and continuity of the revolutionary ideas of the President and the Chairman, formulated their ideas into Kimilsungism-Kimjongilism and proclaimed that modelling the whole society on Kimilsungism-Kimjongilism is the ultimate programme of the Party, it said.

The other great feat of the Supreme Leader is that he further consolidated the overall state power and elevated the country's strategic position onto the highest level by producing world-startling miracles and

changes in all fields of the building of a powerful socialist country through his amazing revolutionary practices, the article said.

Under his leadership, the armed forces of the DPRK have grown into invincible combat forces and the work of arming all the people, fortifying the whole country and developing the defence industry in a Juche-oriented way has entered a higher stage, it said.

As the people waged a vigorous struggle holding firmly in their hands the treasured sword of self-development and science and technology, the material and technical foundations of the independent national economy have been reinforced and supplemented and new springboards for economic construction and the

improvement of the people's livelihood provided, it noted.

Another great feat the Supreme Leader has achieved for the Party and the revolution is that he indicated the way to implement the independent foreign policy and immensely boosted the international prestige and influence of the WPK with his outstanding and distinguished leadership ability and energetic external activities, the article said.

In the past nine years, the DPRK has performed many unprecedented historic miracles in succession, undeterred by the toughest challenges and expanded tremendous state power and influence no one dares to challenge, it noted.

Such miracles are unthinkable apart from the outstanding leadership of the Supreme Leader, it said, adding the WPK headed by Chairman Kim Jong Un and the Korean people will substantiate the validity and invincibility of their cause in practice.

MOVING

Happy laughter rings out in Sunan

Hundreds of low- and single-storey dwelling houses, public buildings and other structures have been built in the area of Pyongyang International Airport in the run-up to the 75th anniversary of the Workers' Party of Korea.

Supreme Leader Kim Jong Un had put forward a lofty plan for sprucing up the area as befits the gateway to the capital city, indicated the

phased orientation and ways for the construction project and solved all the problems arising in it.

Officials and working people of the Cabinet, ministries, national agencies, Pyongyang and South Phyongan Province waged a dynamic drive to complete the construction of houses in different ri around the airport, thus getting ready the gift to be presented to the

Party on the occasion of its 75th birthday.

Cosy modern houses have been built at sunny places brimming with national flavour and sentiments and preserving well regional characteristics and each house consists of several living rooms, a kitchen, a storehouse and a kitchen garden in which fresh vegetables are growing.

The locals of Jaegyong-,

Sanyang-, Ryongbok- and Chondong-ri of Sunan District, Pyongyang, held house-moving ceremonies on October 2 and 4 before moving into new homes.

House licenses were given to them at the ceremonies.

They then moved to new houses in great delight, amid merry singing and dancing.

The agricultural workers were overwhelmed by deep gratitude towards the motherly Party

which safeguards the people's happiness and laughter and brings more joy to them even in the world-sweeping disaster as it provides them with modern houses for free with great loving care.

As they moved into new homes, the farmers expressed their resolve to believe in and support the Party alone with a single heart and defend and add lustre to the socialist country with rice, always keeping in mind the favour shown by the Party.

Era of changes, new looks of DPRK

In the DPRK that is in a golden age of construction, a new buzzword has been coined: "The looks of the country have changed yesterday and today, morning and evening."

The country has literally undergone a sea change over the past nine years.

To cite Pyongyang as an example, new modern streets sprang up in succession, like Changjon, Mirae Scientists and Ryomyong streets, and lots of service facilities opened, such as the Ryugyong General Ophthalmic Hospital, Ryugyong Dental Hospital,

Okryu Children's Hospital, Munsu Water Park, Pyongyang Taedonggang Fish Restaurant, Daesong Department Store, Rungna People's Recreation Ground and Rungna People's Sports Park.

And along the banks of the Pothong River, modern structures were constructed or revamped, including the Pyongyang Municipal Sports Village, Pothonggang Department Store, Mirae Shop, Victorious Fatherland Liberation War Museum, Mansugyo Fish and Meat Shop and the concert hall of

the Samjiyon Orchestra.

Other popular public amenities include the Amusement Park of the Kaeson Youth Park, Mirim Riding Club, Mirim Aviation Club, the floating restaurant *Taedonggang* and the general service ship *Mujigae*.

Transformation is not confined to the capital city of Pyongyang.

Samjiyon in a northern alpine region of the country turned into a standard of modern mountainous city and an ideal land of socialism, and the Kosan Combined Fruit Farm, Masikryong Ski Resort,

Yangdok Hot Spring Resort and other farms, villages and holiday centres that were newly built across the country showcase the level of civilization of the Korean people.

Disaster-stricken areas in the provinces of North and South Hwanghae, Kangwon and North and South Hamgyong

have taken on new appearances beyond recognition in a matter of a few months, notably Kangbuk-ri of Kumchon County and Taechong-ri of Unpha County in North Hwanghae Province.

The looks of the country will

undergo even more changes with the completion of the Pyongyang General Hospital, Tanchon Power Station, other major construction projects and the building of houses in afflicted areas.

Such changes in the country are bringing about the other change.

It is the looks of the people. They enjoy modern civilization of their own and live full of confidence and optimism even though they suffered natural disasters.

WPK Central Committee convenes Politburo meeting

The 19th meeting of the Political Bureau of the Seventh Central Committee of the Workers' Party of Korea took place at the office building of the WPK Central Committee on Monday, presided over by Kim Jong Un, chairman of the WPK, chairman of the State Affairs Commission of the DPRK and supreme commander of the armed forces of the DPRK.

The meeting was attended by members of the Presidium and members and alternate members of the Political Bureau of the WPK Central Committee.

Present there as observers were directors and first deputy directors of relevant departments of the Party Central Committee.

The meeting discussed as its first agenda item the issue of brilliantly marking the Eighth Congress of the Party by waging an 80-day campaign of the entire Party, the whole country and all the people.

The report on the first agenda item referred to the subjective and objective requirements for launching a new offensive under the current situation.

The meeting stressed the need for the entire Party and the whole

country to mount another general offensive since the remaining days till the Eighth Congress of the Party are a period of year-end struggle and at the same time the last phase in implementing the five-year strategy for national economic development put forth at the Seventh Congress of the Party.

The Political Bureau of the WPK Central Committee made a responsible and crucial decision to wage an 80-day campaign involving the entire Party and the whole country until the end of the year in order to celebrate the 75th founding anniversary of the Party as a great

happy event, proudly conclude this year's struggle by lifting up the spirit displayed in that course and successfully greet the Eighth Congress of the Party.

The meeting specified the main purpose of the campaign and the key principles to be maintained and the goals to be attained by each sector during the campaign and made an in-depth study of the detailed orientation and ways for carrying them through.

The Political Bureau of the WPK Central Committee decided to advance militant slogans and send a letter of the Party Central

Committee to all Party organizations and members to inspire the entire Party, the whole country and all the people to turn out in the 80-day campaign.

The meeting as its second agenda item adopted a decision on conferring a high military title on leading officials of the Party and the army on the occasion of the 75th founding anniversary of the WPK.

According to the joint decision of the Central Committee and the Central Military Commission of the WPK and the State Affairs Commission of the DPRK, the title of

the Marshal of the Korean People's Army was conferred on Ri Pyong Chol, vice-chairman of the WPK Central Military Commission and vice-chairman of the WPK Central Committee, and Pak Jong Chon, chief of the General Staff of the KPA.

After informing the participants of the joint decision, Supreme Leader Kim Jong Un congratulated the recipients, requesting them to live up to the deep trust and expectations of the Party and the people with great successes in their work.

KCNA

WPK wholeheartedly devoted to people over 75 years

The history of the Workers' Party of Korea is inconceivable apart from the people. Its guiding ideology, political ideal and mode of politics are based on the people-first principle and its mode of existence is also selfless, devoted service for the people.

The WPK has safeguarded the dignity and destiny of the people at any cost.

The Korean nation is a resourceful and strong people with unyielding self-respect and stamina.

The Korean people engraved upon their hearts the truth that they might not lead a better life than others, but they cannot live being trampled underfoot and that national sovereignty and dignity are more valuable than their lives, while experiencing the bitter life as a ruined nation under Japanese military rule for decades from the early years of the past century.

The WPK finds its origin in the Down-with-Imperialism Union. The programme of the DIU, which harboured a lofty ambition to do away with all imperialism on the globe, contains the truth that

the aspirations and desire of the masses of the people to live independently are stronger than the imperialists' high-handedness and use of violence and it should be the immutable principle and fighting goal of a revolutionary party to champion and serve their independent interests at all costs.

Holding fast to this truth, the WPK has never allowed nor tolerated even once any dominationist arbitrariness and pressure threatening the dignity and destiny of the people since its founding, but enhanced the enormous capacity to cope with them. All the lines and policies of the WPK were independent in every respect. The core that runs through the whole course of the WPK's leadership, ranging from the path of progressive democracy after Korea's liberation to the line of building an independent national economy with the main stress put on heavy industry the WPK had chosen on the war debris, the line of building the economy and defence capability simultaneously, the emergence of Songun politics, the great victory of the new

simultaneous-push policy and the campaign for frontal breakthrough, was to maintain and serve the fundamental interests of the people and national self-respect.

The WPK has radically strengthened the geopolitical and strategic position of the state and consolidated the solid development potentials of its own based on the spirit of independence, self-supporting economy, self-reliant defence capacity and national talent force through the decades-long arduous struggle.

The history of the WPK is that of bringing happiness of the people into full bloom.

The Party emblem, into which a hammer, sickle and writing brush are incorporated, is the symbol of the WPK which embraces all the working people and gives them worthwhile lives as revolutionaries.

The WPK joined hands with anyone, whoever they were and whatever they did in the past, if they loved the country and wanted to serve the people, led them forward along the road of revolution and showed them love and trust. The Korean

people saw with their own eyes and experienced through the actual life the fact that if they throw in their lot with the Party, they can enjoy an eternal life even after their death and that even those who made mistakes or caused troubles in the past can start with a clean slate.

The WPK works hard to provide the people with a happy life.

Today arbitrariness and high-handedness of the imperialist powers are growing more rampant and cruel national egoism is rife on the earth.

The powerful war deterrent provided by the crucial strategic option and wise leadership of the WPK offers a firm guarantee for the present peaceful and happy life of the people.

The Korean people have lived peacefully for decades free from the ravages of war and their younger generations have come to enjoy such a dignified life that no one can dare to harm or look down on.

Now the WPK has set the improvement of the people's living standards as the principal strategic task and is concentrating all energies on

fulfilling it.

It is the unshakeable will of the WPK that if the personal safety of the people is surely guaranteed and their living stabilized, the Party and the state are secure and the economic growth and national prosperity are no problem.

The WPK is now directing everything of the country to relieving the people of the sufferings from natural disasters. The Party Central Committee has turned out for and the human and material potentials of the state are concentrated on the relief operation for the flood victims, and units of the Korean People's Army have been committed to the reconstruction campaign.

Thanks to the crucial decision of the WPK, all traces of natural disasters are being removed and model villages of socialist fairyland and socialist rural community completed one after another.

Therefore, the Korean people call the WPK their motherly party and uphold the Party line and policies with one mind.

At the time when the Party was founded

A broad avenue was opened to the Korean people for building a new Korea after they achieved the cause of national liberation from decades-long Japanese military rule in August 1945.

Soon after putting forward the tasks of building a party, state and armed forces in liberated Korea, Kim Il Sung buckled down to the founding of the revolutionary party of a Juche type.

In order to implement the policy of party founding he made up his mind to establish it by way of forming party organizations in local areas first and setting up the party's central leadership body on that basis.

The anti-Japanese war veterans who were dispatched to every local area conducted energetic activities to consolidate already-formed local party organizations, organize party cells in factories, mines and agricultural and fishing villages and expand party ranks with the progressive elements of workers and farmers.

As a result, party organizations at all levels were adjusted and strengthened in all parts of the northern half of Korea from ri to every province, as well as at industrial establishments, in a short period.

As the formation of local party organizations was pushed dynamically, the time became mature for establishing the party's central leadership body.

Based on a scientific analysis of the

situations existing in north and south of Korea at the time, Kim Il Sung proposed setting up the party's central leadership body in the north with favourable conditions without delay and specified the work to be done to this end.

On the basis of such preparations, a preliminary meeting for founding the party was convened on October 5 1945 and it discussed the issue of forming the Central Organizing Committee of the Communist Party of North Korea as the Party's central leadership body.

At the inaugural congress held between October 10 and 13, the committee was established and the founding of the Party was proclaimed to the whole world.

The founding of the Party meant that the working class and other working people of Korea came to have the true representative and defender of their interests and the Korean revolution became able to confidently push ahead with the building of new society with its political general staff.

At present, the building where President Kim Il Sung founded and led the Party soon after liberation is preserved in its original state at the southern foot of Haebang Hill in Central District, Pyongyang. It is now the Party Founding Museum.

Cherished as mother in the minds of people

The Korean people rely on the Workers' Party of Korea as they do their mothers.

Such faith did not form in a day.

Their absolute trust in the WPK developed through the long period of 75 years since its founding.

The Party's history can be said to be the annals in which the people's age-old desires have been translated into reality.

As the political General Staff leading the revolution, the WPK gave birth to the state and the army, made workers and farmers become masters of factories and the land and granted the people democratic freedom and rights as it carried out various democratic reforms.

The WPK has invariably pursued people-oriented policies, taken good care of them and enabled them to exalt their honour, and its history records numerous touching stories. To name a few, it admitted into it more than 40 people with chequered socio-political records and complicated family backgrounds all at once, awarded many folks in Ryongchon County of North Phyongan Province the certificates of bereaved families of patriotic martyrs at the same time by clearing them of false charges, and reclaimed culprits and made them add lustre to their genuine life.

As they are under the warm maternal care of the Party, those who were afflicted by natural disasters and left homeless

neither fall into despair nor lose their hearts.

As they firmly believe that they will never starve nor shiver in the cold as long as there is the motherly Party, the flood victims go to work in the stricken fields optimistically with a bright smile on their faces, instead of repairing their damaged houses.

The WPK called on its members in the capital city to offer heartfelt consolation to the people in the afflicted areas by demonstrating the warm care and solicitude of the Party and deep affection of Pyongyang and help them and work with devotion so that they can return to a normal life as soon as possible, saying that the 75th founding anniversary of the WPK (October 10) was approaching and that despite the difficult conditions and lack of time, the many victims of the disaster in North and South Hamgyong provinces should not be left to celebrate the holiday in the open. In hearty response to the Party's appeal, its 12 000 members in Pyongyang and other people turned out as one to rebuild all stricken areas into socialist fairyland and model villages of socialist rural community.

The image of mother etched in the people's minds—this is the image peculiar to the Workers' Party of Korea that no others can imitate.

CONTRIBUTION

Cause of the Party led by great leader is invincible

The International Department of the Central Committee of the Workers' Party of Korea published an article titled "Invincible is the cause of the Workers' Party of Korea led by the great leader" on Thursday on the occasion of the 75th founding anniversary of the WPK.

The article said that the Korean people are winning victory after victory even in the face of the worst adversities due to the outrageous challenges from imperialism plus the spread of global epidemic and successive natural disasters that hit the country and that the world's progressives are expressing absolute admiration and appreciation for their indomitable spirit and heroic struggle, showing great interest in the WPK's outstanding

leadership ability and the secret of its success.

During the historic days when Supreme Leader Kim Jong Un was held in high esteem as the top leader of the Party, state and armed forces, he solemnly declared his firm will to lead the Party and people only in President Kim Il Sung's and Chairman Kim Jong Il's style and fight more vigorously toward ultimate victory, it said. "In the course of leading the Party, the revolution, the country and the people for the last nine years, he has accomplished immortal feats that would go down in history".

The greatest exploit he performed for the WPK and the revolution is that he strengthened and developed the WPK into a party of the leader and the most powerful political

leadership organization in which the uniformity and continuity of ideology and leadership are firmly ensured, it noted.

At the historic time when the new century of Juche era was drawing near, the Supreme Leader made a scientific analysis of the perfect coherence and continuity of the revolutionary ideas of the President and the Chairman, formulated their ideas into Kimilsungism-Kimjongilism and proclaimed that modelling the whole society on Kimilsungism-Kimjongilism is the ultimate programme of the Party, it said.

The other great feat of the Supreme Leader is that he further consolidated the overall state power and elevated the country's strategic position onto the highest level by producing world-startling miracles and

changes in all fields of the building of a powerful socialist country through his amazing revolutionary practices, the article said.

Under his leadership, the armed forces of the DPRK have grown into invincible combat forces and the work of arming all the people, fortifying the whole country and developing the defence industry in a Juche-oriented way has entered a higher stage, it said.

As the people waged a vigorous struggle holding firmly in their hands the treasured sword of self-development and science and technology, the material and technical foundations of the independent national economy have been reinforced and supplemented and new springboards for economic construction and the

improvement of the people's livelihood provided, it noted.

Another great feat the Supreme Leader has achieved for the Party and the revolution is that he indicated the way to implement the independent foreign policy and immensely boosted the international prestige and influence of the WPK with his outstanding and distinguished leadership ability and energetic external activities, the article said.

In the past nine years, the DPRK has performed many unprecedented historic miracles in succession, undeterred by the toughest challenges and expanded tremendous state power and influence no one dares to challenge, it noted.

Such miracles are unthinkable apart from the outstanding leadership of the Supreme Leader, it said, adding the WPK headed by Chairman Kim Jong Un and the Korean people will substantiate the validity and invincibility of their cause in practice.

INAUGURATION

Projects completed in the run-up to WPK's 75th anniversary

The Myohyangsan Medical Appliances Factory has recently been upgraded.

Furnished with equipment produced by Korean workers, scientists and technicians, the factory has automated and streamlined all its processes and put its production and management on a scientific and informatized basis at a high level in order to produce modern medical appliances.

An inauguration ceremony took place on October 4.

It was attended by Choe Sang Gon, department director of the Central Committee of the Workers' Party of Korea, O Chun Bok, minister of Public Health, officials and persons of merit who contributed to

the construction of the factory, working people in Hyangsan County and officials and employees of the factory.

Kang Pong Hun, chairman of the Jagang Provincial Committee of the WPK, made an inaugural speech.

At the end of the ceremony, the participants made the rounds of the factory.

The Educational Books Printing Plant has been reconstructed.

Old buildings were all pulled down and more than ten structures built.

Modern equipment has been manufactured and technical problems that arose in perfecting the intelligent production system solved.

Overall production processes have been upgraded and business was optimized to increase the production capacity two times more than before.

Choe Sang Gon, department director of the Central Committee of the Workers' Party of Korea, and Kim Sung Du, chairman of the Education Commission, and relevant officials looked round the upgraded factory on Wednesday.

A modern essential oil factory has been built on the shore of the Taedong River in Pyongyang.

With all its processes forming an integrated production system, the Pyongyang Essential Oil Factory specializes in research and production of essential oils and turns out various kinds of

natural aromatic oils and edible and industrial essential oils.

The natural aromatic oil production line extracts different essential oils from the flowers, leaves, fruits and seeds of plants with advanced equipment.

The edible and industrial essential oil production lines that make a variety of essential oils such as strawberry, *omija* and pine-needle flavourings and the perfume production line that produces perfumes for body, room and car are all up-to-date and dust-free.

The factory's essential oil research institute has developed dozens of kinds of essential oils for edible and industrial purposes.

The factory's products are to

be supplied to domestic foodstuff and cosmetics factories as well as the Dental Hygiene Supplies Factory.

Relevant officials looked round the factory on October 8.

Hungju Youth Power Station Unit 4 has been built in Jagang Province.

The power station, which was built to meet the features of the river basin, is equipped with a scientific control system for maximizing the efficiency of generators.

The construction of the power station will contribute to easing the shortage of electricity needed for the development of the provincial economy and the improvement of people's livelihood.

An inauguration ceremony took place on October 4.

It was attended by Ri Hyong Gun, chairman of the Jagang Provincial People's Committee, officials concerned, officials and employees of the power station, builders and other working people in Kanggye City.

MOVING

Happy laughter rings out in Sunan

Hundreds of low- and single-storey dwelling houses, public buildings and other structures have been built in the area of Pyongyang International Airport in the run-up to the 75th anniversary of the Workers' Party of Korea.

Supreme Leader Kim Jong Un had put forward a lofty plan for sprucing up the area as befits the gateway to the capital city, indicated the

phased orientation and ways for the construction project and solved all the problems arising in it.

Officials and working people of the Cabinet, ministries, national agencies, Pyongyang and South Phyongan Province waged a dynamic drive to complete the construction of houses in different ri around the airport, thus getting ready the gift to be presented to the

Party on the occasion of its 75th birthday.

Cosy modern houses have been built at sunny places brimming with national flavour and sentiments and preserving well regional characteristics and each house consists of several living rooms, a kitchen, a storehouse and a kitchen garden in which fresh vegetables are growing.

The locals of Jaegyong-,

Sanyang-, Ryongbok- and Chondong-ri of Sunan District, Pyongyang, held house-moving ceremonies on October 2 and 4 before moving into new homes.

House licenses were given to them at the ceremonies.

They then moved to new houses in great delight, amid merry singing and dancing.

The agricultural workers were overwhelmed by deep gratitude towards the motherly Party

which safeguards the people's happiness and laughter and brings more joy to them even in the world-sweeping disaster as it provides them with modern houses for free with great loving care.

As they moved into new homes, the farmers expressed their resolve to believe in and support the Party alone with a single heart and defend and add lustre to the socialist country with rice, always keeping in mind the favour shown by the Party.

People enjoy illumination festival "Wonders of Light-2020".

An illumination festival entitled "Wonders of Light-2020" opened in Pyongyang on Tuesday.

The festival was visited by delegates and members of the visiting group to celebrations of the 75th founding anniversary of the Workers' Party of Korea.

The venue of the festival, that is the places around Pyongyang Department Store No. 1 and the foot of Jangdae Hill, was crowded with people who came to see the fascinating art of light.

At the festival, large images were projected on the wall of the department store building with the help of unique 3-D multimedia and multi-channel, multiplex projection technologies, entrancing viewers from the beginning.

Displayed at the venue were symbols of the proud history of the Party "2020", "October 10" and "75" and the title of "Wonders of Light-2020".

A series of pictures were

presented by marvellous light of various colours and through the contrast between light and shade, including the three-person group sculpture of the Tower of the Juche Idea, the proud looks of the socialist country and the happy life of the Korean people.

Visitors were enraptured by illuminations showing various lifelike images using 3-D effects.

They were deeply impressed by the art of light that vividly displayed the pictures showing wonderlands of socialist civilization and monumental structures through the precision representation of dots and lines using the optical characteristics of the building wall.

Lively music and the fascinating world of light formed perfect artistic harmony in the projection which ended with the presenting of the image of fireworks of celebration.

the working masses with a genuine life and happiness by dint of outstanding ideas, energetic leadership and selfless and devoted efforts for the good of the people.

The performance was seen by Ju Yong Gil, chairman of the Central Committee of the GFTUK, TU officials and workers and TU members in Pyongyang.

The artistic motivational team of the Central Committee of the Union of Agricultural Workers of Korea gave performance "The song of glory and loyalty of agricultural workers reverberates through the sky of October" at the Unhung Cooperative Farm in Thaechon County, North Phyongan Province, on Tuesday in celebration of the 75th founding anniversary of the Workers' Party of Korea.

Put on the stage were prologue and songs *Long Live the Workers' Party of Korea* and *It Is October*, female ensemble *We've Planted Skullcap and Crab-Apple Trees on the Mountains*, narrative poem and medley of songs *When We Walk along the Road between Fields*, female duet *Glory of Our Life* and other pieces.

Performers sang highly of the revolutionary feats of President Kim Il Sung and Chairman Kim Jong Il, who founded and built the WPK and indicated the path of the solution of the socialist rural question to lay an eternal foundation for the country's agricultural development, in the famous songs of the times.

Among the audience were Kim Chang Yop, chairman of the UAWK Central Committee, Sin Tong Chol, vice-chairman of the North Phyongan Provincial

Committee of the WPK, officials concerned, UAWK officials and agricultural workers in Thaechon County.

The art group of the Socialist Women's Union of Korea gave a performance at the Hall of Women in Pyongyang on Wednesday.

The performance was seen by officials of the Central Committee of the Socialist Women's Union of Korea and members of the women's union in Pyongyang.

It began with narration and chorus *Mother's Birthday* and *Long Live the Workers' Party of Korea*, and the venue was brimming with women's joy of celebrating the Party's birthday.

The premiere of comedy show "Our house full of laughter"

was given at the Pyongyang Municipal Youth Park Open-Air Theatre on the evening of October 7.

The theatre was crowded with the delegates to the celebrations of the 75th founding anniversary of the WPK and other people.

Put on the stage on the festive night were such distinctive numbers as calembours, animal feats and magic tricks depicting the aspects of life of the Korean people in a humorous and witty way.

The show ended with the chorus of both the performers and the audience *We Are the Happiest in the World*.

The performance will continue until October 16.

FACELIFT

Era of changes, new looks of DPRK

In the DPRK that is in a golden age of construction, a new buzzword has been coined: "The looks of the country have changed yesterday and today, morning and evening."

The country has literally undergone a sea change over the past nine years.

To cite Pyongyang as an example, new modern streets sprang up in succession, like Changjon, Mirae Scientists and Ryomyong streets, and lots of service facilities opened, such as the Ryugyong General Ophthalmic Hospital, Ryugyong Dental Hospital,

Okryu Children's Hospital, Munsu Water Park, Pyongyang Taedonggang Fish Restaurant, Daesong Department Store, Rungna People's Recreation Ground and Rungna People's Sports Park.

And along the banks of the Pothong River, modern structures were constructed or revamped, including the Pyongyang Municipal Sports Village, Pothonggang Department Store, Mirae Shop, Victorious Fatherland Liberation War Museum, Mansugyo Fish and Meat Shop and the concert hall of

the Samjiyon Orchestra.

Other popular public amenities include the Amusement Park of the Kaeson Youth Park, Mirim Riding Club, Mirim Aviation Club, the floating restaurant *Taedonggang* and the general service ship *Mujigae*.

Transformation is not confined to the capital city of Pyongyang.

Samjiyon in a northern alpine region of the country turned into a standard of modern mountainous city and an ideal land of socialism, and the Kosan Combined Fruit Farm, Masikryong Ski Resort,

Yangdok Hot Spring Resort and other farms, villages and holiday centres that were newly built across the country showcase the level of civilization of the Korean people.

Disaster-stricken areas in the provinces of North and South Hwanghae, Kangwon and North and South Hamgyong

have taken on new appearances beyond recognition in a matter of a few months, notably Kangbuk-ri of Kumchon County and Taechong-ri of Unpha County in North Hwanghae Province.

The looks of the country will

undergo even more changes with the completion of the Pyongyang General Hospital, Tanchon Power Station, other major construction projects and the building of houses in afflicted areas.

Such changes in the country are bringing about the other change.

It is the looks of the people. They enjoy modern civilization of their own and live full of confidence and optimism even though they suffered natural disasters.
